Double Patenting

Claims 1-32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-26 of U.S. Patent No. 6,581,341 B1 to Baratuci et al in view of U.S. Patent No. 3,891,007 to Kleykamp as in the rejection of paper no. 11.

Response to Arguments

Applicant's arguments filed 1/21/04 have been fully considered but they are not persuasive. Applicant argues that the prior art is not flexible. However, the prior art is disclosed as flexible being flexible (Baratuci column 2, lines 46-48, Kleykamp abstract lines 4-5). Applicant argues that Kleykamp cannot be used with Baratuci because the combination would defeat the purpose of Bartuci's shim. Because the flexible tube of Kleykamp may make the shim unnecessary to use, does not mean that the tube can not be used. Kleykamp is a ribbed tube, and as combined with Baratuci, discloses the basic claim structure of the instant application.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art. Unit: 3635

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
